Kentucky Bluegrass Chapter

2022 KY Bluegrass SWANA Chapter Statewide ROAD-E-O

It's ROAD-E-O time & the stakes have never been higher!

1st Prize-\$300.00 2nd Prize-\$200.00, 3rd Prize-\$100.00

The **SWANA ROAD-E-O** is designed to enhance employee morale, instill a competitive spirit, and encourage superior performance among the solid waste drivers and equipment operators at your city or company. This event is designed to be a competitive test and measure of a contestant's skill operating equipment and his or her knowledge of the safety regulations and equipment used.

Contestants are required to maneuver equipment through a preset course. All categories are judged for accuracy and time.

To compete, contestants must have been continuously employed as a driver for the past twelve months (before May 1, 2022) at the location he or she represents. Contestants must have not accumulated any chargeable accidents or injuries during the prior twelve months. Truck drivers must also have a clean Motor Vehicle Report and each contestant must have a reasonable work attendance record without any unexcused or unscheduled absences in the twelve months prior to the ROAD-E-O.

Other requirements:

**Registration forms for this event must be received by
JUNE 13, 2022.**

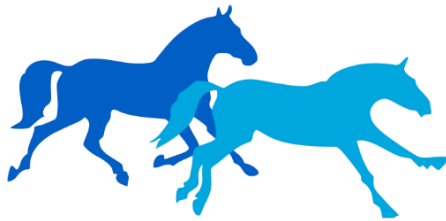

STATE Truck ROAD-E-O: JUNE 25, 2022

Location:

**1631 Old Frankfort Pike
Lexington, KY 40510**

Contestants are eligible to compete in the: **2022 International ROAD-E-O**

October 14-15, 2022 in El Paso, Texas.

SWANA

Kentucky Bluegrass Chapter

2022 KY Bluegrass SWANA Chapter Statewide ROAD-E-O

What is a SWANA ROAD-E-O?

MECHANICS

DRIVERS

The SWANA ROAD-E-O is a competitive test and measure of skill and knowledge.

The ROAD-E-O concept was created when Solid Waste Association of North America managers and mid-level foremen decided they needed a way to reward their staffs and showcase the talents of their crew in a family atmosphere.

Whether the ROAD-E-O competitor is a truck driver, landfill equipment operator or mechanic, the trail to the SWANA Kentucky Bluegrass chapter Statewide ROAD-E-O isn't an easy one.

ROAD-E-O competitors must meet several important criteria (including at least a year of accident free on the job performance) and win either first or second place in their regional or statewide ROAD-E-O competition in order to qualify for the International ROAD-E-O.

SWANA – and the world at large – recognizes the outstanding performances of the ROAD-E-O competitors. Winners often receive cash prizes and some companies or municipalities match the awards. Local papers cover the events, and despite the competitive spirit, the ROAD-E-O remains a community outreach event that brings together families, co-workers and professionals.

During the SWANA ROAD-E-O, the following equipment is used to test drivers' abilities in a standard obstacle course:

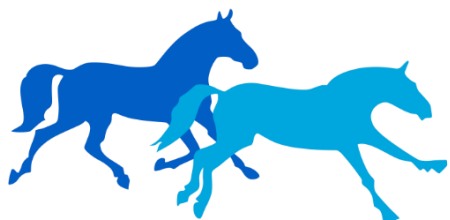

Truck:

Roll-Off
Rear Load
Front Load
Automated Side Load

Mechanics:

Vehicle inspection

*The above information is based in part on information provided by www.swana.org. Visit www.swana.org to learn more about SWANA, the leading professional association in the solid waste field!

RELEASE AND WAIVER OF LIABILITY, ASSUMPTION OF RISK AND INDEMNITY AGREEMENT

2022 State Truck ROAD-E-O June 25, 2022 in Lexington, KY

IN CONSIDERATION of being permitted to compete, officiate, observe, work for, or participate in any way in the EVENT(S) or being permitted to enter for any purpose any RESTRICTED AREA (defined as any area requiring special authorization, credentials, or permission to enter or any area to which admission by the general public is restricted or prohibited), EACH OF THE UNDERSIGNED, for himself, his personal representatives, heirs, and next of kin:

1. Acknowledges, agrees, and represents that he have or will immediately upon entering any of such RESTRICTED AREAS, and will continuously thereafter, inspect the RESTRICTED AREAS which he enters, and he further agrees and warrants that, if at any time, he is in or about RESTRICTED AREAS and he feels anything to be unsafe, he will immediately advise the officials of such and if necessary will leave the RESTRICTED AREAS and/or refuse to participate further in the EVENT(S).

2. HEREBY RELEASES, WAIVES, DISCHARGES AND COVENANTS NOT TO SUE the promoters, participants, racing associations, sanctioning organizations or any subdivision thereof, track operators, track owners, officials, car owners, drivers, pit crews, rescue personnel, any persons in any RESTRICTED AREA, promoters, sponsors, advertisers, owners and lessees of premises used to conduct the EVENT(S), premises and event inspectors, surveyors, underwriters, consultants and others who give recommendations, directions, or instructions or engage in risk evaluation or loss control activities regarding the premises or EVENT(S) and each of them, their directors, officers, agents and employees, all for the purposes herein referred to as "Releasees," FROM ALL LIABILITY TO THE UNDERSIGNED, his personal representatives, assigns, heirs, and next of kin FOR ANY AND ALL LOSS OR DAMAGE, AND ANY CLAIM OR DEMANDS THEREFOR ON ACCOUNT OF INJURY TO THE PERSON OR PROPERTY OR RESULTING IN DEATH OF THE UNDERSIGNED ARISING OUT OF OR RELATED TO THE EVENT(S), WHETHER CAUSED BY THE NEGLIGENCE OF THE RELEASEES OR OTHERWISE.

3. HEREBY AGREES TO INDEMNIFY AND SAVE AND HOLD HARMLESS the Releasees and each of them FROM ANY LOSS, LIABILITY, DAMAGE, OR COST they may incur arising out of or related to the EVENT(S) WHETHER CAUSED BY THE NEGLIGENCE OF THE RELEASEES OR OTHERWISE.

4. HEREBY ASSUMES FULL RESPONSIBILITY FOR ANY RISK OF BODILY INJURY, DEATH OR PROPERTY DAMAGE arising out of or related to the EVENT(S) whether caused by the NEGLIGENCE OF RELEASEES or otherwise.

5. HEREBY acknowledges that THE ACTIVITIES OF THE EVENT(S) ARE VERY DANGEROUS and involve the risk of serious injury and/or death and/or property damage. Each of THE UNDERSIGNED, also expressly acknowledges that INJURIES RECEIVED MAY BE COMPOUNDED OR INCREASED BY NEGLIGENT RESCUE OPERATIONS OR PROCEDURES OF THE RELEASEES.

6. HEREBY agrees that this Release and Waiver of Liability, Assumption of Risk and Indemnity Agreement extends to all acts of negligence by the Releasees, INCLUDING NEGLIGENT RESCUE OPERATIONS and is intended to be as broad and inclusive as is permitted by the laws of the Province or State in which the Event(s) is/are conducted and that if any portion thereof is held invalid, it is agreed that the balance shall, notwithstanding, continue in full legal force and effect.

I HAVE READ THIS RELEASE AND WAIVER OF LIABILITY, ASSUMPTION OF RISK AND INDEMNITY AGREEMENT, FULLY UNDERSTAND ITS TERMS. UNDERSTAND THAT I HAVE GIVEN UP SUBSTANTIAL RIGHTS BY SIGNING IT AND HAVE SIGNED IT FREELY AND VOLUNTARILY WITHOUT ANY INDUCEMENT, ASSURANCE OR GUARANTEE BEING MADE TO ME AND INTEND MY SIGNATURE TO BE A COMPLETE AND UNCONDITIONAL RELEASE OF ALL LIABILITY TO THE GREATEST EXTENT ALLOWED BY LAW. ALL SECTIONS MUST BE COMPLETED.

2022 KENTUCKY STATE SWANA ROAD-E-O

Drivers Written Exam

To be turned in no later than JUNE 13, 2022

CONTESTANT NAME (PRINT): _____

- 1) What is the minimum annual rate for administering random alcohol testing?
 - a. 10 percent.
 - b. 25 percent.
 - c. 50 percent.
 - d. There isn't a minimum annual rate.
- 2) Stopping distance is determined by which factors:
 - a. Perception distance, reaction distance, brake lag distance, braking distance.
 - b. Reaction distance and braking distance.
 - c. Depth perception, reaction time, condition of brakes.
 - d. None of the above.
- 3) Taking a curve too fast could cause:
 - a. The steering wheel to lock up.
 - b. The wheels of a vehicle to lose traction, resulting in a skid.
 - c. A traffic jam.
 - d. None of the above.
- 4) At the scene of an accident or breakdown, regulations call for the use of:
 - a. Three bi-directional emergency reflective devices.
 - b. Six fuses capable of burning for 30 minutes.
 - c. Three liquid burning flares filled with enough fuel to burn continuously for at least one hour.
 - d. Any of the above.
- 5) The Federal Motor Carrier Safety Regulations (FMCSR) require you to set out emergency warning devices within _____minutes of stopping.
 - a. five
 - b. ten
 - c. fifteen
 - d. thirty
- 6) You must complete and sign a written driver vehicle inspection report:
 - a. At the start of your shift.
 - b. At the end of each day's work on each vehicle you drove.
 - c. At the beginning of each month.
 - d. None of the above.

- 7) The professional driver never:
- a. Watches his vehicle's speed and space.
 - b. Tailgates.
 - c. Has a positive attitude.
 - d. All of the above.
- 8) To maintain space to the sides of your vehicle you should:
- a. Use your mirrors.
 - b. Stay centered.
 - c. Communicate your presence.
 - d. All of the above.
- 9) It is unsafe to pass when:
- a. Going uphill.
 - b. Approaching a side road.
 - c. Approaching a bridge.
 - d. All of the above.
- 10) When passing a vehicle, the driver should:
- a. Stay as far left as possible
 - b. Stay as far right as possible.
 - c. Remain in the center lane.
 - d. None of the above.
- 11) Skids are caused by:
- a. Over acceleration.
 - b. Over braking.
 - c. Oversteering.
 - d. All of the above.
- 12) Which of the following is not a type of skid?
- a. Braking skid.
 - b. Sledding skid.
 - c. Power skid.
 - d. Cornering skid.
- 13) Front wheel skids are often caused by:
- a. Reduced front wheel traction.
 - b. Lack of tread on front tires.
 - c. Oversteering.
 - d. All of the above.
- 14) _____ is considered a serious traffic violation.
- a. Reckless driving.
 - b. Improper lane changes.
 - c. Following the vehicle ahead too closely.
 - d. All of the above.

15) A driver is disqualified for 60 days for committing _____serious traffic violations.

- a. One.
- b. Two.
- c. Three.
- d. Four

16) Hydroplaning is caused by:

- a. Excessive speed.
- b. Under-inflated tires.
- c. Worn tires.
- d. All of the above.

17) A driver is prohibited from using alcohol:

- a. While performing safety-sensitive functions.
- b. During the 8 hours before performing safety-sensitive functions.
- c. At all times whether on duty or off duty.
- d. After 10 p.m.

18) Tests for drugs are done:

- a. With a specially treated swab.
- b. By analyzing a urine specimen.
- c. Through a series of breath tests.
- d. By analyzing a cardiac stress test.

19) What are the three physical factors that play a part in falls?

- a. Momentum, density, and gravity.
- b. Friction, gravity, and momentum.
- c. Friction, momentum, and density.

20) Density, friction, and gravity. When rounding a curve, you should:

- a. Use your vehicle's hazard warning flashers.
- b. Alternate between your vehicle's low beam and high beam headlights.
- c. Reduce your vehicle's speed.
- d. Increase your vehicle's speed.

21) When driving at night you should:

- a. Look directly into the headlights of oncoming vehicles.
- b. Not look directly into the headlights of oncoming vehicles.
- c. Both A and B.
- d. None of the above.

22) In good weather low beam headlights allow you to see:

- a. 150 feet
- b. 200 feet
- c. 250 feet
- d. 300 feet

23) In good weather high beam headlights allow you to see:

- a. 100 to 200 feet
- b. 200 to 250 feet
- c. 250 to 300 feet
- d. 350 to 500 feet

24) Which areas of your vehicle should you pay special attention to when it comes to preventive maintenance?

- a. Tires.
- b. Brakes.
- c. Engine.
- d. All of the above.

25) The professional driver is:

- a. Courteous.
- b. Punctual.
- c. Reliable.
- d. All of the above.

26) Who is responsible for the public image of truck drivers?

- a. Law enforcement.
- b. All motorists.
- c. Truck drivers.

27) What step should a driver take to improve his/her visibility as well as being seen by other drivers?

- a. Keep the windshield and mirrors clean and clear.
- b. Use mirrors and constantly scan the traffic to the front and sides.
- c. Look 10 to 12 seconds ahead of the vehicle in the city, and further ahead on the highway.
- d. All of the above.

28) Which of the following play a part in which gear a driver needs to select to safely travel on a upgrade?

- a. Steepness of grade.
- b. Length of grade.
- c. Weight of load.
- d. All of the above.

29) When using the "5-3" rule or "stab braking" you should:

- a. Begin your descent at a controlled speed.
- b. Apply brakes firmly to reduce speed 5 mph in 3 seconds when the control speed is exceeded.
- c. Repeat b. as often as necessary.
- d. All of the above.

30) Which of the following is considered a major offense?

- a. Speeding 10 mph or more above the speed limit.
- b. Improper lane changes.
- c. Leaving the scene of an accident.
- d. All of the above.

31) A driver who is convicted of two major offenses can be disqualified for:

- a. One year
- b. Three years
- c. Five years
- d. Life

32) When leaving an expressway, you should:

- a. Signal early.
- b. Check mirrors.
- c. Get in the turn lane as soon as possible.
- d. All of the above.

33) If the traffic light turns yellow as you approach the intersection:

- a. Speed up slightly to make it through before the light turns red.
- b. Slow down and prepare to stop.
- c. Look both ways then speed up slightly to cross before the light turns red.
- d. Tap your brakes then proceed across the intersection.

34) If an underpass is marked 14 feet and your rig is 13.5 feet:

- a. Assume you have adequate clearance to pass through safely.
- b. Assume you have clearance and follow the posted speed limit.
- c. Slow down as you approach to evaluate the road surface and your clearance.
- d. None of the above.

35) The basic tenant of defensive driving is:

- a. Stay alert and aim high.
- b. Look well ahead.
- c. See the whole picture.
- d. All of the above.

36) How much a driver slows down in a curve depends on:

- a. The sharpness of the curve.
- b. Road conditions.
- c. Visibility.
- d. All of the above.

37) When merging with traffic, you should:

- a. Signal early.
- b. Build up speed to merge smoothly.
- c. Both a. and b.
- d. Shift down to a lower gear.

38) Which of the following items is not required on a driver vehicle inspection report:

- a. Windshield wipers.
- b. Horn.
- c. Tires.
- d. Radiator.

39) Before driving a commercial motor vehicle, you must:

- a. Complete and sign a written driver vehicle inspection report.
- b. Ask the mechanic about the vehicle's condition.
- c. Review the last written report and be satisfied that the vehicle is in safe operating condition.
- d. None of the above.

40) The motor carrier must retain the original copy of each vehicle inspection report for:

- a. One month.
- b. Two months.
- c. Three months.
- d. Six months.

41) If you are involved in an accident or are the first at the scene what is the first thing you should do?

- a. Report to your company at once.
- b. Admit fault.
- c. Report the accident and the damage to your company.
- d. Stop immediately.

42) If you feel you are at fault in an accident:

- a. Tell the police officer.
- b. Do not admit guilt at the scene.
- c. Tell the police officer and notify your company.
- d. Notify the company and they can talk with law enforcement.

43) Which of the following is a basic rule a professional driver should follow when turning?

- a. Know the vehicle.
- b. Plan in advance.
- c. Watch your mirrors.
- d. All of the above.

44) When a vehicle rounds a curve and its rear wheels do not follow the same path as the front wheels this is called:

- a. Hydroplaning.
- b. Deplaning.
- c. Off-tracking.
- d. On-tracking.

45) Which of the following is not a type of testing required under the regulations?

- a. Post-accident.
- b. Random.
- c. Return-to-duty.
- d. Pre-employment alcohol testing.

46) If an accident involves a parked vehicle:

- a. Leave immediately.
- b. Stay on the scene until the owner of the vehicle returns.
- c. Leave your name, company's name, and phone number with an area business or resident.
- d. None of the above.

47) What is the minimum annual rate for administering random drug testing?

- a. 25 percent.
- b. There isn't a minimum annual rate.
- c. 75 percent.
- d. 50 percent.

48) When randomly selected to undergo a drug or alcohol test, you:

- a. May report to the collection site at any time within the next 72 hours.
- b. Must report to the collection site immediately.
- c. Must make an appointment for a test with your family physician.
- d. May report to the collection site within the next 16 hours.

49) After being notified that a drug test is positive a driver has _____ to request a test of the split specimen.

- a. 24 hours
- b. 48 hours
- c. 72 hours
- d. an unlimited amount of time

50) Which of the following items should be checked on a regular basis to help prevent a cab or engine fire?

- a. Batteries.
- b. Fuses.
- c. Electrical systems.
- d. All of the above.

2022 Kentucky State SWANA Road-E-O Mechanics' Exam

All questions are True or False

Circle the correct answer

1. Eye protection is optional if you are using a protective shield. TRUE FALSE
2. Watches and rings are only a hazard if you are working around batteries. TRUE FALSE
3. If you have used a defective tool once or twice without getting hurt, it is probably okay to use it one more time. TRUE FALSE
4. Gas welding goggles are not adequate for arc welding. For arc welding, use a welding hood with the proper lens. TRUE FALSE
5. Drive shaft vibration after a new universal joint has been installed can be caused by a drive shaft installed out of phase. TRUE FALSE
6. A stall test on an automatic transmission will check the converter starter clutch. TRUE FALSE
7. If a growling, grinding or screeching noise is heard when the clutch pedal is depressed, the probable cause is a worn or defective clutch release (throw-out) bearing. TRUE FALSE
8. Auxiliary Allison transmission filters are mounted in the oil pan. TRUE FALSE
9. Steering-Wheel shimmy at road speeds is probably due to front tires and wheel shimmy at road speeds.
TRUE FALSE
10. Keeping spring U-bolts tight is an important maintenance operation. They should be periodically retightened with the vehicle empty. TRUE FALSE
11. If a shock absorber on the front axle is leaking, the proper procedure is to replace the defective shock absorber. TRUE FALSE
12. Worn bushing in a tandem rear-axle suspension can cause drive-shaft vibration. TRUE FALSE

13. Improper condition of the hydraulic fluid can cause pump failure. TRUE FALSE
14. Cylinders convert mechanical power to fluid power. TRUE FALSE
15. Galvanized pipe is recommended for high pressure hydraulic plumbing. TRUE FALSE
16. A swash plate is used in an external gear pump. TRUE FALSE
17. A volt is a measure of current flow. TRUE FALSE
18. The need to add excessive water to a battery indicates the charging rate is too high.
TRUE FALSE
19. The engine will not start if the polarity is reversed in an electrical system with an alternator.
TRUE FALSE
20. Weak brush-holder springs will cause brushes to short circuit. TRUE FALSE
21. Employees who are at the top of their grade are considered valuable employees to the organization.
TRUE FALSE
22. If you are giving instructions to a co-worker, make sure they ask questions to find out if the instructions are understood. TRUE FALSE
23. Workers are expected to understand required standards and have the ability to meet those standards in their daily work environment. TRUE FALSE
24. Class C fire extinguishers were developed for small fires involving electrical wiring, controls, panels and motors. TRUE FALSE
25. A torque wrench measures the size of a nut. TRUE FALSE
26. A chassis dynamometer is an electronic analyzer. TRUE FALSE
27. A good tool for checking a cooling system is a radiator and pressure-cup tester. TRUE FALSE
28. A feeler gauge is recommended for checking tread depth of tires. TRUE FALSE
29. A tire-inflation cage prevents slow leaks in tires. TRUE FALSE
30. Actual compression pressure in a diesel engine is approximately 300 psi. TRUE FALSE
31. Ether is used as a starting aid for diesel engines because it ignites at low temperatures.
TRUE FALSE
32. The actual compression pressure on a diesel engine is approximately 200 psi. TRUE FALSE

33. The compression release on a Cummins engine operates by holding the valves open.

TRUE FALSE

34. Mechanics should avoid adding 90-degree elbow fitting to the air brake system, adding four elbows is equivalent to 28 feet of hose. TRUE FALSE

35. Break hoses must be replaced if worn, chaffed, cut or cracked through the outer cover.

TRUE FALSE

36. Kinked or plugged air compressor discharge lines have been known to cause a pressure build-up so great the cylinder block will be lifted off the crankcase of the compressor and completely destroy the compressor. TRUE FALSE

37. Excessive oil in the air brake system is probably caused by engine oil pressure being too high.

TRUE FALSE

38. The function of a thermostat is to prevent overheating. TRUE FALSE

39. The maximum freezing protection is obtained by a mixture of ethylene glycol and water at the rate of 50% antifreeze and 50% water. TRUE FALSE

40. If a vehicle ammeter shows "charge" when the headlights are turned on after a battery replacement, it indicates a fuse in the charging circuit is blown. TRUE FALSE

41. The best freezing and cooling protection are obtained with 100% ethylene glycol in the radiator. TRUE FALSE

42. A "split" hydraulic brake system is two separate systems with a dual master cylinder.

TRUE FALSE

43. When brake drums have been machined (turned) to the maximum limit specified by the vehicle manufacturer or state law, and additional machining is needed to true the drum, it should be exchanged for a rebuilt drum. TRUE FALSE

44. If a brake pedal rises and falls or pulsates when brakes are applied, the probable cause is glazed lining.

TRUE FALSE

45. On a vehicle with disc/drum brakes, the front brakes grab quickly when light pedal pressure is applied.

This problem could be caused by a bad proportioning valve. TRUE FALSE

46. If a hydraulic brake line is leaking, the correct repair would be to replace the leaking line with double flared steel tubing. TRUE FALSE

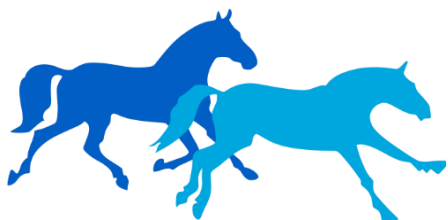

47. A cracked or loose intake manifold causes a noticeable drop in oil pressure. TRUE FALSE
